

Mark,
Thank so much for getting the
basement bath & exercise room wired
for sound. It's great! The next
project is the rec room, which is
truly a "wreck" room. I'll be in
touch when the room is clear of
junk and we can start planning
for sound. All the best, Sally

Mark

Enclosed please find our final
payment. Thank you for your patience
as we shifted things up a little. Josh
& Eddie have been terrific. (Fort
will miss them.) We are very pleased
with the results.

Chuck

Mark- thanks and I will forward to Jennifer. The system is terrific and I am personally grateful to you for convincing me on the universal remote! I don't know what grandpa would have done without you during the Final Four!

Actually, the system is really great and I look forward to subtle upgrades as the technologies for the music evolve over time. Please keep us informed.

Also, it is probably need that we have a little training on the use of the security system. Please let us know how we accomplish that.

Thanks for your team's efforts. You have some really great guys.

All the best.

Jon

Thanks. We love it. Even I can work the remote! Bonnibel

Thank you!
-Cindy

Mank

Thanks so much for all
that you and your
team have done.

Peter

out the
for the
eat
service!
